

## **Fredonia Culinary Water Project** *Subcontractor*

Fann Environmental was subcontracted by Johansen Construction to provide installation services for the arsenic treatment system facility. This facility was one part of a larger project that consisted of replacing the entire City of Fredonia's water distribution system. Fann Environmental installed all underground piping within the facility, coordinated with other subcontractors to maintain the construction schedule for the facility, and provided the installation of the treatment system components. Once complete, Fann Environmental installed the media and provided start-up services.

**Owner:** City of Fredonia

**Final Construction Cost:** \$280,000

**Project Completion Date:** 2011

### **Fann Environmental Key Personnel:**

Gary Steinmetz - Project Manager
