

Quail Ridge Water Improvement District *Operation and Maintenance*

Fann Environmental provides all operation and maintenance for Quail Ridge Water Improvement District water system. Our work includes twice weekly site visits to check all facilities, wells, tanks, arsenic treatment system and booster pumps. This system supplies water to 200 users. Fann Environmental obtains samples, reads meters, performs scheduled routine maintenance and is on-call 24 hours per day, seven days a week for emergencies. Fann Environmental is also responsible for all regulatory compliance and reporting for ADEQ and ADWR.
